# OUR HOME

## OUR HOME

Our stadium is called 'De Adelaarshorst, which was built in 1920 and has a capacity of 10.000 spectators. In 2015, two stands were rebuilt, while the club is developing plans to completely renew the other two stands in the near future. This will give the club more possibilities to host our fans, guests and Business Partners.

# OUR FOCUS

## OUR FOCUS

We focus on development. Giving players and staff a platform to make the next step in their career. In terms of equipment and staff members, the facilities are available to work in a professional sport environment.

One of our goals is to let youth players from our 'Voetbalacademie' promote to our first team. For example Sam Beukema (see picture), who now plays for Bologna FC.

## OUR STYLE OF PLAY

- We want to play in a possession dominated way
- We want to build up from the defensive line, but where necessary or possible, we also handle the long ball
- We always look to pass through the lines
- We want to chase the opponent after losing the ball

# GOALKEEPER

## GOALKEEPER

Our goalkeeper has a good appearance and is able to prevent direct and indirect danger. He is comfortable with high balls and good in 1 vs 1 situations. It is important that he's comfortable to play, also with his feet, from the back.

## GAE PORTAL

After the window closed on September 2 (season 2023/2024), we register players through the online scouting portal, which can be found at <https://scouting.ga-eagles.nl/>. This portal makes it easier to sign up players to our scouting system, and ensures that each player can be assessed quickly and consistently. On the website you will also find the profiles that we are currently looking for. In addition, this way we can easily provide feedback on the registered players, and keep you informed of the status in our process.
